Specific program content may vary by campus, credential and course electives. For complete program details, please refer to the campus catalog.

What’s the Career Demand?

Employment of security guards is expected to grow by 14 percent between 2008 and 2018, which is faster than the average for all occupations. This occupation will have a very large number of new jobs arise, about 152,500 over the projections decade. Concern about crime, vandalism, and terrorism continues to increase the need for security. Demand for guards also will grow as private security firms increasingly perform duties that were formerly handled by police officers.

Your local market data likely differs from these federal statistics.

Your own hard work, professionalism, experience, work attitude, local market and other factors will impact your personal employment opportunities and pay.
