Nursing — Associate of Science

Program Information
Through knowledge and training, RNs assist individuals and groups to stay healthy and prevent or cope with disease. RNs work in many settings providing direct patient care. Some areas are: Hospitals, Schools, Industry, Physicians’ Offices, Clinics…the choices are endless! Our program can provide you with the opportunities to help you achieve your goal of becoming a Registered Nurse.

Program at a Glance
Our Registered Nursing program provides instruction in the following essential areas:
- Community Health Nursing
- Fundamentals of Nursing
- Leadership
- Maternal/Child Nursing
- Medical Surgical Nursing — Basic to Advanced
- Mental Health Nursing
- Pharmacology

Specific program content may vary by campus, credential and course electives. For complete program details, please refer to the campus catalog.

What Are the Career Opportunities?
Graduates of this program, upon passing the NCLEX-RN examination, may find career opportunities in the following areas:
- Extended Care Facilities
- Hospitals
- Medical Centers
- Physicians’ Offices
- Surgery Centers

What’s the Career Demand?
Employment of registered nurses is expected to grow 26 percent from 2010 to 2020, faster than the average for all occupations. Technological advancements, increased emphasis on preventive care and the aging baby boomer population will drive demand for skilled professionals. Both traditional hospital settings and non-hospital settings like physicians’ offices and home health care services will experience this growth.

Your own hard work, professionalism, experience, work attitude, local market and other factors will impact your personal employment opportunities and pay.

Your local market data likely differs from these federal statistics.

Helping You Change Your Career—and Your Future
When you’re looking to make a change in your life, and for a school to help you reach your goal, look to Everest.
