MAKING LEARNING INTERESTING

> Hands-on learning
> Flexible schedules*
> Instructors with real-world experience
> Student financial planning and financial aid for those who qualify
> Career placement assistance

* Schedules vary by campus

What Are the Career Opportunities?

Graduates of this program may find entry-level career opportunities in the following areas:

> Apprentice Electrician
> Electrical Technician
> Field Service Technician
> Landscape Lighting Technician Trainee
> Lighting Service and Repair Technician Trainee
> Maintenance Technician Trainee

What’s the Career Demand?

Employment of electricians is expected to grow 23 percent from 2010 to 2020, faster than the average for all occupations. Growth of the construction industry as well as maintenance of older equipment in manufacturing plants will drive the demand for electricians. The emerging field of alternative power generation and the need to link these alternative power sources to homes and power grids will provide additional opportunities.

Your local market data likely differs from these federal statistics.

Your own hard work, professionalism, experience, work attitude, local market and other factors will impact your personal employment opportunities and pay.

Program Information

The commercial and residential electrical industries are constantly evolving as new industry demands require increased skill sets for electricians. Our program is designed to give you the skills you’ll need to excel in this competitive field, with hands-on training in electrical safety, residential and commercial wiring, power distribution, advanced code concepts and motors, industrial controls, programmable logic controllers, signaling systems, and troubleshooting.

Program at a Glance

Our program provides instruction in the following essential areas:

> Conduit Bending and Installation
> Electrical Hand Tools
> Electrical Safety and Code Requirements
> Electrical Theory and Troubleshooting
> Emergency Systems
> Industrial Controls and Automation
> Motor Concepts
> Power Distribution and Test Equipment
> Residential and Commercial Wiring
