Choose Your Career Field
Find the career path that is right for you! Use our unique Career Profile worksheet to choose an education option, and learn how our training can prepare you for an exciting new future.

Options for Financing Your Education
We offer a range of education financing options, and our student finance planners can help you find a manageable way to finance your career training.

A Unique Learning Environment
Once you choose a career path, learn with our real-world training programs. With interactive instruction, you practice what you learn. Ask questions in small work teams and get help from instructors who make education interesting.

Career Placement Assistance
Our Career Services team can help you prepare resumés, write cover letters, learn effective interviewing techniques, and find career opportunities in your chosen field after graduation.

How to Get Started
Call us today at 866-463-4996 or visit the campus nearest you. We look forward to helping you change your life.

**HELPING YOU CHANGE YOUR CAREER — AND YOUR FUTURE**

When you’re looking to make a change in your life, and for a school to help you reach your goal, look to WyoTech. We’re committed to helping you identify a new career direction by providing the training you need to succeed. We offer a supportive environment designed to help students excel. Our instructors and staff will be right there to help you every step of the way!

**MAKING LEARNING INTERESTING**

- Specializing in hands-on learning
- Flexible schedules*
- Instructors with real-world experience
- Student financial planning and financial aid for those who qualify
- Career placement assistance

* Schedules vary by campus

---

**PROGRAM INFORMATION**

Would you like to work in the climate control field? Our program provides you with the specialized skills to perform service and repair procedures in the areas of heating, ventilation and air conditioning. Our program provides a thorough understanding of electronic control mechanisms, air conditioning and refrigeration fundamentals, and heating systems.

**WHAT ARE THE CAREER OPPORTUNITIES?**

Our program is designed to provide you with the technical skills to gain entry-level employment in the heating, ventilation and air conditioning industry in the following capacities:

- A/C Mechanic Apprentice
- HVAC Service Repair Assistant
- HVAC Installer Trainee
- Preventive Maintenance Technician

---

**PROGRAM AT A GLANCE**

Our program provides instruction in areas such as:

- Air Conditioning and Heating Systems
- Copper Piping and Soldering Technique
- Diagnostics and Repair Procedures
- Gas Furnace Design and Wiring Safety
- Heat Pump Systems
- Power Sources and Circuit Diagrams
- Printed Circuit Boards
- Refrigeration and Electrical Theory
- Testing Instruments and Troubleshooting Techniques

Specific program content may vary by campus, credential and course electives. For complete program details, please refer to the campus catalog.

**WHAT'S THE CAREER DEMAND?**

Employment of heating, air conditioning, and refrigeration mechanics and installers is projected to increase 28 percent during the 2008-18 decade, much faster than the average for all occupations. As the population and stock of buildings grows, so does the demand for residential, commercial, and industrial climate-control systems. The increased complexity of these systems, which increases the possibility that equipment may malfunction, also will create opportunities for service technicians.

Your local market data likely differs from these federal statistics.

Your own hard work, professionalism, experience, work attitude, local market and other factors will impact your personal employment opportunities and pay.
