> Student financial planning and financial aid for those who qualify
> Career placement assistance

*Schedules vary by campus.

Program Information

Gain hands-on experience in our labs and prepare for employment as a plumber, pipe fitter and steam fitter. This program also explores plumbing history, uniform plumbing code, plumbing piping systems, blueprint reading and heating systems.

Program At a Glance

Our program provides instruction in the following essential areas:

• Backflow Prevention
• Bathroom and Kitchen Fixtures
• Construction Safety
• Faucet and Valve Installation
• Job Estimates and Pricing
• Pipe Fitting and Tubing Materials
• Plumbing Code Requirements
• Power Tools
• Sewage Lines and Sump Pumps
• Storm Drain Systems
• Waste Systems
• Water Pressure
• Water Supply

Specific program content may vary by campus, credential and course electives. For complete program details, please refer to the campus catalog.

What are the Career Opportunities?

Once you complete your training, your new career might begin with one of the following entry-level positions:

> Plumber
> Plumbing Apprentice
> Plumbing Technician
> Service Technician

What’s the Career Demand?

Employment growth projections for plumbers, pipe fitters and steamfitters is 26 percent through 2020, above the pace of average occupational growth. Demand drivers include new building construction and stricter water efficiency standards for plumbing systems. Increased retirement over the next 10 years will create additional openings in the industry. Maintenance and repair of plumbing and pipe systems may provide a more stable employment environment than construction.

Your local market data likely differs from these federal statistics.

Your own hard work, professionalism, experience, work attitude, local market and other factors will impact your personal employment opportunities and pay.
